

# LOW PROFILE

No space? No problem. Incorporating a poly injection cone and butyl rubber surround, LP subwoofers creates incredible bass even when space is extremely limited, such as underneath or behind car seats.

## LP10

*10" High Power Slim Mount Subwoofer*

- Black Poly Injection Cone
- Butyl Rubber Surround
- 2" High Temperature Kapton Voice Coil
- 40 oz. Magnet / 80 oz. Magnet Structure
- Rubber Magnet Cover
- 800 Watts Max / 400 Watts RMS
- Impedance: 4 OHM
- Sensitivity: 91dB
- Frequency Response: 35Hz - 2KHz
- Mounting Depth: 3-3/8"

## LP12

*12" High Power Slim Mount Subwoofer*

- Black Poly Injection Cone
- Butyl Rubber Surround
- 2" High Temperature Kapton Voice Coil
- 50 oz. Magnet / 100 oz. Magnet Structure
- Rubber Magnet Cover
- 1000 Watts Max / 500 Watts RMS
- Impedance: 4 OHM
- Sensitivity: 92dB
- Frequency Response: 30Hz - 1.5KHz
- Mounting Depth: 3-7/8"

### Recommended Enclosures

| MODEL       | BOX TYPE | CU.FT. | PORT TUBE |
|-------------|----------|--------|-----------|
| <b>LP10</b> | Sealed   | 0.5    | —         |
|             | Vented   | 1.0    | 3" x 6"   |
| <b>LP12</b> | Sealed   | 0.8    | —         |
|             | Vented   | 1.2    | 3" x 6"   |

*Enclosure requirements can vary depending on materials, construction design and dimensions.*
